Product Description

Dental E-Max Crown

Discover the perfect combination of beauty and strength with Dental E-Max Crowns from ADS China Dental Lab. These crowns are designed to provide outstanding esthetics and durability, making them a top choice for dental professionals and patients.

Advantages

Excellent Esthetics with Natural Translucency: Achieve lifelike, natural-looking results that blend seamlessly with your existing teeth.

Exceptional Strength and Durability: E.Max crowns are designed to withstand daily wear and tear, ensuring longevity.

Versatile for Various Types of Restorations: Ideal for single crowns, veneers, inlays, onlays, and full-arch reconstructions.

Minimal Tooth Preparation: Reduces the need for extensive tooth preparation, preserving natural tooth structure.

Biocompatible and Well-Tolerated: Safe and reliable for patients, minimizing the risk of sensitivities or allergies.

Key Features

Esthetic Excellence: E.Max restorations closely mimic the natural tooth's color and translucency.

Exceptional Strength: Combines esthetic appeal with remarkable strength, suitable for both anterior and posterior restorations.

Versatility: Adaptable for various dental restorations, meeting diverse patient needs.

Minimal Tooth Preparation: Conservative approach that preserves more of the natural tooth.

Biocompatibility: Ensures patient safety and comfort with minimal risk of adverse reactions.

Indications

Single crowns

Veneers

Inlays and onlays

Full-arch reconstructions (with proper case selection)

Considerations

Accurate shade selection and effective communication with ADS China Dental Lab are essential for optimal esthetic results.

Clinical evaluation and proper case selection are critical for the successful use of E.Max restorations.

Experience Excellence with ADS China Dental Lab
